

# Potato

**Uniforming size,  
increasing productivity and shelf-life**

**StimUp** is a biostimulant with an elevated efficiency, containing humic and fulvic acids with a low molecular weight. The use of **StimUp** stimulates the production of hormone-like substances, favouring the development of a **major number of potatoes**, uniforming their size, **leaf development and chlorophyll protection** from degenerative processes.

**Calcito**, employed in the stage of tuber differentiation and of tuber swelling, enhances the absorption of calcium in the soil by the plant. An optimal absorption of calcium determines an excellent quality of the skin, **avoiding damage in the harvest stage and reducing the risk of browning, holes in the tuber, internal rust spot and ring rot**; moreover, by enhancing the content of dry matter of the potato, **shelf-life increases**.

For a more complete treatment, it is recommended using **SuperPower Extra** combined with **Cereas 38**. The first product is localized at sowing and, thanks to the balanced intake of nitrogen and phosphorus, determines a **rapid and uniform sprouting**, while **Cereas 38**, at the stage of ridging, provides ureic and ammonium nitrogen with sulphur, ensuring an **optimal nutritional intake to the crop**.

**Grow well  
to eat better**

## Application period and dosage:

**SuperPower Extra 40 kg/ha**

Localized fertilization at sowing

**Cereas 38 dose 5 q/ha**

At ridging

**StimUp 100 ml/ha**

Foliar application during tuber differentiation

**Calcito 25 kg/ha**

One application in the stage of tuber differentiation and one application at tuber swelling (by using sprinklers and an elevated volume of water to simulate the fertigation technique)

---

## Results of the field trial carried out in the production area of Patata Novella di Siracusa in 2020

Transplant date: November 2019

**FCP field trial**

**FCP field trial:** average weight of the potatoes in 10 m<sup>2</sup> **46 kg**

**Test**

**Test:** Weight of the potatoes harvested in 10 m<sup>2</sup> **33 kg**
