

FERT - THE BENEFIT OF THE TWO WORLDS

Master

10.5.15+2CaO+22SO₃+7,5C-Org 2N-Org

Master is an organo-mineral NPK compound fertilizer obtained by granulation. It contains both organic and mineral matrices with a high nutritional value. The balanced nutritional composition makes it ideal for alkaline soils.

It contains soluble phosphorus, easy to be absorbed by the plant, and slow-release organic nitrogen. The presence of humic acids guarantees a better assimilation of nutrients. It is recommended for pre-sowing applications on extensive and oil crops.
